

MUSEUM PROGRAMS

▲ DISCOVERING DINOSAURS

Grades: Pre K-4

Learn all about these mysterious creatures by becoming a paleontologist for a day and dig into the world of dinosaurs! Children will learn about the different dinosaurs that ruled the earth, what they ate, how they defended themselves and why they became extinct.

▲ DOWN THE SHORE

Grades: Pre K-2

Catch a wave and explore the Jersey Shore! We'll comb the beach and swim the ocean, as we discover many creatures you might run into down the shore.

▲ STUFFEE: YOUR AMAZING BODY!

Grades: K-4

See how we're all the same on the inside with this fun-filled anatomy lesson. You'll meet Stuftee, our seven-foot, blue haired friend from the **Gift of Life**, and learn all about nutrition and staying healthy.

▲ BUBBLE MAGIC: THE SCIENCE OF SUDS!

Grades: K-4

Join us as we use bubbles to explore the world of science. This fun-filled workshop will explore why bubbles are round, demonstrate why we see colors in them and even put yourself inside a giant bubble.

● SENSATIONS

Grades: Pre K-2

Explore your senses with our unique blend of hands-on activities and mini science experiments. Students will learn about their world through the five senses and see how important they are in everyday life.

● SCIENCE OF SOUND

Grades: K-3

In this hands-on, "ears-on" science workshop, students learn about producing sound and the effects of sound on different materials. At the end of this fun workshop, students will get the chance to play with instruments and make some crazy sounds.

● CREEPY CRAWLERS

Grades: K-4

Have a chance to see some of the creepiest crawlers you've ever laid eyes on and learn what makes them tick! We'll explore three types of bugs and get up close to some of the Museum's resident bugs.

● KID'S KITCHEN CHEMISTRY

Grades: 1-4

Discover how you can do great, safe science experiments with everyday kitchen supplies. The Garden State Discovery Museum will be opening up its cabinets to concoct some creative delights.

● ANIMAL SIGNS

Grades: 2-4

Have you ever found a bird's feather or a paw print in your yard? How about a bug's exoskeleton or animal skin? These are only a few of the signs we will uncover as we learn about what's living in our backyards and neighborhoods.

● POLLUTION SOLUTIONS

Grades: 2-4

Students will work with a mini watershed to see the effects of pollution on our streams, rivers and lakes. We will learn how we can fight pollution in our neighborhoods and keep our water clean.

● MASKS AROUND THE WORLD

Grades: 2-4

Create outstanding tribal masks, festive party masks and learn why masks are so important around the world. This is a great workshop that everyone will love – and you get to create your very own mask!

KEY:

- ▲ Capacity 65 children
- Capacity 25 children

...OR WE CAN VISIT YOU!

COMMUNITY OUTREACH

The Center for Learning is the perfect answer to turning your school or community event into a unique celebration that families will not forget!

You can choose face painting, our giant bubble tower, a science craft and much more!

Two Hour Event: \$250

Four Hour Event: \$400

TO BOOK A MUSEUM ON THE MOVE PROGRAM

Please have:

- Two or three possible dates
- Location description
- Age and size of audience
- Site address, contact name and phone number

Travel Information:

- Discounts for multiple shows on same date
- Additional fee for travel over 25 miles

Program Fee: \$275

AFTER-SCHOOL PROGRAMS AND CAMPS

Looking for a fun way to incorporate hands-on activities into your after-school program or camp?

Let us bring your students one of our six-week programs:

- Harry Potter Science
- Kid Friendly CSI
- Jr. Discovery Rangers
- Art Attack

Program Fee: \$85 per child

OPEN ARMS: SUPPORT FOR THE AUTISM SPECTRUM DISORDER COMMUNITY

With special family events, support group meetings, exclusive field trip and birthday party opportunities, and guest speakers, the Center for Learning has created a safe and supportive environment at the Museum for children with autism, their caregivers and siblings. Please visit www.discoverymuseum.com/asd.asp for more information.

TEACHER WORKSHOPS

Every spring and fall, the Subaru Center for Learning offers a series of free teacher workshops sponsored by **Lockheed Martin**.

Receive Department of Education credits as you participate in sessions on science, literacy, diversity, and more. Visit our website for upcoming dates and topics.

Our staff can also bring hands-on, science-based teacher workshops to your facility! Call (856) 424-1233 ext. 314 for more information.

SUBARU CENTER FOR LEARNING TEACHER RESOURCE ROOM

Come and explore our brand new headquarters for educators to prep materials, reference lesson plans and educational kits, attend workshops, as well as work with Center for Learning staff to bring hands-on science into your classroom. Evening and weekend hours vary. Volunteers interested in working in the Subaru Center for Learning please call (856) 424-1233 ext. 309.
